Monash University spans multiple campuses in Melbourne and is the largest university in Australia with more international campuses than any other Australian university. It’s dedicated to transcending traditional boundaries and achieving an impact on communities worldwide. Studying at Monash offers the opportunity to be a part of Australia’s largest university network with access to scholars at the forefront of their field around the world.

Based in Australia’s most culturally diverse city, you’ll meet people from more than 200 countries who call Melbourne home. Everyone in Melbourne has a connection to another culture in some way and this has created a safe, vibrant and welcoming city with a proud multicultural history.

Melbourne is also marked as a UNESCO City of Literature and features a year-round program of celebrated festivals and events at its leading institutions and regional attractions. As a Monash Arts student, you’ll also have Australia’s largest student network to connect into Melbourne’s intimate and ever expanding arts scene of galleries, independent cinemas, cafés, bars and live music venues.

Studying a Monash Arts graduate course offers primary access to the University’s flagship Clayton and Caulfield campuses in Melbourne.

For full details on all our graduate programs, visit arts.monash.edu/graduate-studies

FROM THE DIRECTOR OF GRADUATE COURSEWORK PROGRAMS

Welcome to Monash Arts.

Our master’s degrees offer a wealth of international and local experience through industry engagement, internships and field schools. Our academic mentors are specialists in their field who’ll challenge your thinking and extend your knowledge in a collegial learning environment. Our programs also encourage the development of research skills for career practice or further academic study.

Throughout your degree you’ll engage with a vibrant mix of students from across the world with whom you’ll share knowledge and understandings, and forge lasting friendships.

Associate Professor Vicki Peel
Deputy Associate Dean (Education)
Director of Graduate Programs
Monash Arts
MONASH ARTS WILL HELP YOU SUCCEED IN A CHANGING WORLD

INDUSTRY CONNECTIONS
Internships and strong industry engagement will give you a competitive advantage in the market.

INTERNATIONAL REPUTATION
Monash graduates are recognised and in demand across the world. Increase your global opportunities with a truly international university.

FIELD SCHOOLS AND STUDY TOURS
Practical, on-the-ground experience both in Australia and abroad. These unique learning experiences will inspire you throughout your career.
BIG THINKERS
Learn directly from global industry leaders and researchers at the forefront of their field. Their insights will transform your way of thinking and empower you to solve complex problems.

WORLD-CLASS FACILITIES
Our outstanding new Media Lab, newly redeveloped libraries with more than 1.5 million items and contemporary study spaces, the latest in teaching technologies and dedicated graduate student lounges will provide you with the resources and skills needed in today’s digital economy.

PREPARING THOUGHT LEADERS FOR THE FUTURE
Monash Arts graduate programs will equip you with the practical skills and the critical thought to succeed and lead in tomorrow’s world.
FLEXIBILITY

All our master’s programs are available as 100 per cent coursework, or in combination with research and internship units. You can tailor your course to suit your interests and career needs, whether you come with some background in the field, or if you’re new to the area.

Depending on your previous experience, you can complete your course in one, one-and-a-half or two years if you’re studying full-time.

Each course is made up of a series of different types of units:

Foundation units – You’ll take these if your previous qualification is not in a related field, or if you wish to take a longer program of study. There are normally a range of elective foundation units to select from to provide you with an orientation to the field of studies at graduate level.

Core master units – Taken by all students, these will equip you with specialist knowledge related to the field.

Capstone units – Designed to allow you to demonstrate what you’ve learnt, and apply the skills you’ve acquired – for example, via an internship or research project.

Discipline elective units – You’ll have the opportunity to select from a range of units related to the field that best meets your own study interests.

Complementary elective units – Available to students completing the two-year option, these selected complementary elective units can be taken from any of the master’s by coursework degrees offered in the Faculty.

Research units – This option allows you to complete a short or a longer thesis, that can enable you to pathway through to a PhD program if you wish.
ARTS GRADUATE PROGRAMS OFFER YOU...

TAILORED MASTER’S
If you’re enrolled in a 96-point (2 years full-time) program, you can tailor your course to suit your needs, by taking up to 24 credit points of complementary electives from any other Arts master’s by coursework program.

ACCELERATED 1 YEAR MASTER’S
If you’re eligible to enrol in a 72-point (1.5 years full-time) program, you may also have the option of completing the course via intensive mode over a 10-month period.

PROFESSIONAL INTERNSHIPS
Available via a list of 600+ providers, you’ll have the chance to work within an organisation either locally or internationally.

STUDY TOURS
All our programs offer studies tours in Australia and globally.

RESEARCH PATHWAY
If you’re a high-achieving student you may seek permission to undertake a research thesis, as prerequisite for future enrolment in a Higher Degree by Research such as a PhD.

LEADERSHIP OPPORTUNITIES
Develop your leadership skills and take advantage of professional development workshops in the Arts Graduate Leadership Program.
I know the importance of having work experience – there’s a lot of competition for jobs when you graduate and it’s useful to have that extra hands-on work experience. That’s experience that goes on your CV, and it’s actually enjoyable because you’re the one that picks the internship, so you pick what you want to do. It was really good to explore how different places operate and how they work.”

PATRICK RODEN
Master of Communications and Media Studies

Patrick interned at digital marketing company Digital Next, where he had the opportunity to learn new technologies and put communication theories into practice.
INDUSTRY ENGAGEMENT

Engagement with industry is at the heart of all Monash courses, and we’re committed to delivering industry-relevant programs to ensure strong graduate outcomes for our students.

Course advisory panels
All of our graduate coursework programs are informed by industry-based advisory boards, where leaders from government, corporate, cultural and not-for-profit sectors contribute to our program content, ensuring we deliver cutting-edge programs which not only address the current needs of industry, but also look to solve future challenges.

Internships, fieldwork and experiential learning
Monash is committed to providing you with the best possible opportunity to apply academic theory to real-world situations through our accredited internship and fieldwork programs. These programs offer you the chance to either work within an organisation or carry out fieldwork and research both locally and internationally for a period of between four weeks and a full semester. We see this as a crucial component of a well-rounded education, which will enable you to better understand workplace culture, to actively engage in the application of concepts, and to develop networks and connections which can assist you in establishing your career.

Learn from leading practitioners
Our highly-regarded academic faculty comprises some of the world’s leading and most active arts and humanities minds. You’ll also have the opportunity to learn directly from industry experts and practitioners who’ve risen to the top of their own profession, and who are passionate about passing their knowledge and experience on to a new generation of leaders. Monash’s teaching staff are widely sought-after by industry, government and the media for their input into everything from bioethical questions to matters of international politics and diplomacy. They combine world-class research with robust industry networks to ensure you graduate with both the conceptual and practical skills necessary for a sustained and successful career.

WORLD-CLASS FACILITIES

As Australia’s largest university, Monash can offer students access to world-class facilities and alternative study opportunities.

Learning and Teaching Building
The new impressive Learning and Teaching Building at Clayton comprises four levels and includes more than 60 formal and informal learning and teaching spaces. The innovative, contemporary design combines advanced technologies with spaces that have been designed to provide an outstanding student-centred learning experience.

Australia’s foremost libraries
Sir Louis Matheson Library and Caulfield Library have recently undergone major redevelopments with flexible study and teaching spaces, advanced technologies, in-house cafés, contemporary and inspiring study areas and greater access to the University’s special collections.

Founded in 1964, the Matheson Library is noted as one of Australia’s foremost humanities libraries. The Caulfield Library is an important resource centre for the humanities as well as art, design and architecture, business and economics, information technology and health sciences.

Monash Media Lab
The Media Lab at our Caulfield campus offers Monash students unrivalled access to teaching and production facilities that are among the most sophisticated in the country.

Combine on-campus learning with flexible online study
Most of our graduate coursework programs offer you the opportunity to combine your on-campus experience with online access, so that you can fit your studies around your work, family and other life commitments. Many programs offer evening classes and full online subjects to give you the flexibility you need to advance your qualifications whilst pursuing your career.
AN INTERNATIONAL EDUCATION

With campuses and partner organisations around the world, Monash offers a truly global study experience.

Not only does a Monash education give you the opportunity to undertake international exchanges and internships, but our community of world-class academic staff and our international student cohort ensure you’ll open your mind to a world of possibilities and perspectives through your studies.

A world-leading university
Monash has achieved an enviable national and international reputation for research and teaching excellence in 50 years.

According to the Times Higher Education World University Rankings 2017-2018, we’re ranked:
• in the top 1 per cent of world universities
• no.38 in the World’s Most International Universities in 2018.

A ‘Group of Eight’ University
Monash is a member of the Group of Eight, an alliance of leading Australian universities recognised for their excellence in teaching, learning, research and graduate outcomes.

Group of Eight universities produce graduates who find full-time employment sooner and begin on higher salaries than graduates from other Australian universities.

You can be assured you’re on the right path. Our research is helping to change the world, and that means when you study with us, you might change it too.

An internationally-respected qualification
Our global credentials, world-class research reputation and international connections ensure that your Monash degree can open doors the world over. Our graduates have been employed with government, non-government and private sector organisations worldwide.

FIELD SCHOOLS AND INTERNSHIPS: FOR ON-THE-GROUND EXPERIENCE

All Monash Arts graduate coursework programs offer you the opportunity to undertake international internships or attend global field schools to give you practical, real-world experience within your specialised field.

We provide overseas study and international immersion experiences for more students than any other university in Australia.

Whether it’s understanding a new wave of cultural innovation through Shanghai’s city lab; helping to build sustainable tourism models in developing economies like Estonia or Fiji; or investigating the way traditional media outlets are adapting to change in New York City, our international study opportunities provide you with unique, once-in-a-lifetime experiences which will help to shape your worldview and your career.

Monash Abroad

The Monash Abroad travel grant has made studying overseas more accessible than ever. All Monash students are eligible to apply for a grant through which the University will contribute to the cost of international education experiences and exchanges. Find out more at monash.edu/study-abroad

"I really loved my summer intensive subject. We got to go to New York and Washington DC, we visited BuzzFeed, Associated Press, Washington Post and other places of interest and saw how their newsrooms operated. That was an amazing experience and I really suggest everyone look into that."

TIFFANY KORSSEN
Master of Journalism

Tiffany Korssen completed her Bachelor of Arts in cultural anthropology at Monash, and then went on to study her Master of Journalism after completing her final semester abroad in Hawaii.

In 2015 she completed an internship with the Herald Sun as part of her master’s course, and is now working there as a journalist.

MASTER OF APPLIED LINGUISTICS

Become an advanced specialist in one of the most powerful communication tools we have, with Monash’s highly-regarded Master of Applied Linguistics.

A true qualification for the 21st century, applied linguistics is one of the fastest growing fields of study in the humanities and is becoming increasingly recognised for its ability to solve language-related problems at a micro and macro level. With globalisation, the demand for English language experts, teachers and intercultural communicators has significantly increased. As a professional at the forefront of this field, your knowledge of how language works and how it can be used across a broad range of scenarios will be highly valued in the workplace – opening doors to a successful and rewarding career.

Adapt the course to suit your needs
You’ll complete core units that explore how language variation comes to bear on communication across cultures, and how we use language differently according to context and across social groups.

You’ll develop skills in language analysis and be able to apply small practice-based research projects within your own professional context as part of the assessment process.

Elective units give you the option of exploring areas such as discourse analysis, intercultural communication and teaching global languages.

How will the course help advance your career?
The Master of Applied Linguistics will allow you to develop as a leader in your field. You’ll gain a critical understanding of theoretical and practical issues relating to applied linguistics, including foreign language acquisition, language teaching, language contact and intercultural communication. Throughout the course you’ll have opportunities to develop your own interests within applied linguistics and to apply your developing knowledge to professional contexts.

Our Applied Linguistics program has a proud reputation for excellence in the field, and this is reflected in strong workplace opportunities for graduates. An understanding of linguistics in a global landscape is highly-regarded in industry, particularly where skills in solving language related problems are required to optimise communication. Monash graduates have found employment in government, non-government and private sector organisations both in Australia and internationally.

Our alumni hold positions in organisations as varied as:
- universities and schools
- journalism
- the information technology sector
- the health sector
- marketing, communications and public relations
- banking

Industry connections and internships
The application of linguistic knowledge to professional contexts is at the heart of the curriculum in the Master of Applied Linguistics. You’ll have the opportunity to regularly engage with real-world case studies and practical problem-solving as part of your studies.

There’s also an extensive fortnightly seminar series where you can engage with guest lecturers from industry and other universities.

We also support students doing an internship as part of the course – giving you genuine hands-on experience within industry. High-achieving students may also have the freedom to devise their own internship or research project which may be undertaken locally or internationally.

Further information:
monash.edu/study/course/A6001
**LEARN FROM THE BEST**

Our academic teaching staff members are innovative researchers and established industry professionals who are committed to creating a supportive learning environment within which students from all backgrounds can thrive. You’ll have the opportunity to learn from an international team of experts who bring insights and experience from all over the globe.

---

**Dr Howard Manns**

Program Director

Dr Manns’ primary research interest is language variation and change, and the impact of this change on speakers and communities. His current work focuses on the Australian deaf-blind community, Australian English, Indonesian youth and the development of intercultural competence.

**Dr Booke Bolander**

Program Director

Dr Bolander’s major research interests include the sociolinguistics of globalisation (with a particular focus on English in multilingual contexts and language and transnationalism) and digital discourse; and she has researched and published widely in these areas.

**Study intensively and complete your course quicker**

If you’re eligible to enrol in a 72-point (1.5 years full-time) master’s by coursework program, you also have the option of completing the course via intensive mode over a 10-month period.

**Combine coursework with research**

The course offers high-achieving students the opportunity to complete a research project as part of their studies. This approach can provide a pathway through to PhD study for those interested in furthering their academic credentials.

**Flexible online study available**

The Master of Applied Linguistics is available either entirely on-campus, entirely online, or as a combination of both study modes. This provides you with the flexibility to fit study around your work or life commitments, and also ensures that you can access the program from anywhere in the world.
MASTER OF BIOETHICS

Revolutionary developments in biological and health sciences and technology are increasingly raising crucial ethical questions. The Master of Bioethics prepares students with the ability to provide well-informed analysis of these issues that are relevant to both individuals and society as a whole.

The program is especially designed for health professionals, scientists and those involved in public policy. Bioethics is something that Monash is famous for – and the Master of Bioethics is widely acknowledged to be one of the world’s most innovative and highly-respected programs.

About the Monash Bioethics Centre

The Master of Bioethics is offered by the Monash Bioethics Centre, which was established by Professor Peter Singer in 1980 as Australia’s first research centre devoted to bioethics. The centre is renowned as a world leader in research, industry engagement and education offerings. In 2014 it was designated as a World Health Organization (WHO) Collaborating Centre for Bioethics, of which there are only six worldwide.

Industry connections

Our connections with industry at an international and local level include a wide variety of organisations such as Médecins Sans Frontières (Doctors Without Borders), The Alfred hospital (Melbourne), International Association of Bioethics, and Virtues Across the Continents Network.

Who is the program suited to?

The course attracts students from a wide range of backgrounds and professions. Knowledge of ethics or philosophy isn’t essential and the course can be tailored to suit your specific industry and career focus. It’s particularly well-suited to the following groups:
- health care professionals, doctors and scientists who face complex ethical issues in their working lives
- those involved in the formulation of public policy
- legal professionals aiming to develop or refine specialised knowledge
- journalists, media commentators and public policy advocates
- philosophy graduates with an interest in further study of bioethics
- anyone interested in bioethical issues of public concern.

How will the course help advance your career?

A key strength of our program is its provision of a solid philosophical grounding, which is crucial to doing bioethics well. This means you’ll develop stronger analytical skills, be able to think through issues more clearly, and be confident that your decisions and views regarding ethical issues are well-informed.

The Master of Bioethics will help you to develop a deeper understanding of ethical frameworks and their application to real-world issues. You’ll also gain familiarity with newly-emerging controversies surrounding the latest developments in science and technology – and with current policies and practices in clinical and research ethics.

You’ll be taught by staff who are internationally renowned for their bioethics research and teaching, and who are active and prominent contributors to public debate on a wide variety of issues in bioethics.

Internships

The WHO Fellowship

Each year, our master’s students can apply for a fellowship with the Global Health Ethics Unit at the WHO headquarters in Geneva, Switzerland. This is a unique opportunity to be part of the important work done by the WHO at an international level.

Internships with the WHO or other organisations may also be possible via the Monash Arts graduate internship unit.

Where can the course take you?

Master of Bioethics graduates go on to influence policy development and ethical practices at a wide range of influential organisations such as leading teaching hospitals, professional associations, governmental bodies and NGOs.

Further information:
monash.edu/study/course/A6002
LEARN FROM THE BEST
You’ll have the opportunity to learn from expert staff with international reputations for teaching and research in bioethics. Genuine leaders in the field, our academics are active and prominent contributors to public debate and their industry insights will help you to navigate your own career path. Their knowledge will expand your perspective and challenge your practice to improve your ethical decision making.

Professor Michael J. Selgelid
Director, Monash Centre for Bioethics

Professor Selgelid’s research focus is public health ethics with an emphasis on ethical issues associated with biotechnology and infectious disease. He regularly contributes to high profile policy deliberation regarding infectious diseases including involvement with the World Health Organization (WHO) Emergency Committees regarding Ebola and Zika. Among his publications is a recent White Paper on Gain-of-Function Research Ethics commissioned by the US government.

He’s chair of the Global Network of WHO Collaborating Centres for Bioethics; and he serves on the Board of Directors of the International Association of Bioethics, and on the Ethics Review Board of Médecins Sans Frontières.

Monash World Health Organization Fellowship in Geneva
Monash Master of Bioethics students can apply for an annual fellowship to work as an intern in the Global Health Ethics Unit at the World Health Organization headquarters in Geneva, Switzerland.

MELISSA CHRISTIDIS
Master of Communications and Media Studies

Play a leading role as a communicator in the digital economy with our renowned Master of Communications and Media Studies.

The last decade has seen unprecedented changes in communications and media content, technology and policy – with wide-ranging implications for business, politics, public policy and everyday life. As the innovation agenda sweeps through our social, political and economic lives, this course provides you with the skills to take a leadership role in the new economy and converging media.

Housed within our innovative School of Media, Film and Journalism, the program makes full use of the professional experience and networks of teaching staff. Hands-on skill development in project management, media research and media production in the new state-of-the-art Monash Media Lab is complemented by a rigorous academic grounding which will provide you with the conceptual framework for critical decision making throughout your career.

Who is the program suited to?
The course is designed for students working, or looking to work, in the communications and media industries, including media research, organisational and strategic communication, policy formulation and public relations. The course aims to develop graduates who are able to take initiative and embrace leadership in this rapidly-changing environment – whether in business, politics, public administration, non-government organisations or everyday life.

How will the course help advance your career?
The Master of Communications and Media Studies will prepare you for an exciting career in a range of industries. You’ll graduate with advanced written, communication and analytical skills and a thorough understanding of the place of communications and media in politics, public policy and business. The strong academic and research focus of the course will empower you with the intellectual confidence to succeed within a competitive industry environment.

With broad electives available from our Journalism and Cultural and Creative Industries programs, the course will give you a dynamic understanding of the technological, cultural, economic and social changes sweeping our world. Our breadth of subject offerings is indicative of the broad employment opportunities available. This diversity is further reflected in our graduates’ employment destinations, with our alumni holding roles in influential global organisations such as:

- Telstra
- SCTV, Jakarta, Indonesia
- Time Out Beijing
- Victorian Department of Human Services
- Pacific Brands
- BBC Worldwide
- CNN International Ltd, London.

The program also has an optional research pathway that includes a thesis – the gateway to a further higher degree such as a PhD.

Industry connections and internships
The course provides you with the option of undertaking a Communications Industry Internship subject where you can apply your skills in real-work situations. Recent partners who’ve supported Monash interns include Shandong Television (SDTV), the United Nations in New York (Department of Public Information), Greta Donaldson Publicity, Slattery Media, Mango Communications and the Department of Broadband, Communications and the Digital Economy. The program also offers structured, assessed field trips to media industries in Melbourne, Sydney and Shanghai.

Excursions and guest lectures help to provide further industry-based learning opportunities – where you’ll hear directly from leading practitioners in the field. In previous years, these organisations have included the AudioBoom, Seek, Southern Cross Austereo, Channel 10, Australian Broadcasting Corporation, Fairfax Media, News Ltd, Essential Communications Media, Fox Studios, GetUp, and the Department of Broadband, Communications and the Digital Economy.

CAREER OUTCOMES
- Journalist
- Public relations consultant
- Tourism marketer
- Brand marketing manager
- Communications advisor
- Digital media strategist

The graduate program was a great stepping stone in allowing me to successfully land a position in Telstra’s internal corporate communications team. More recently, I was promoted to Brand Marketing Manager, having the ability to work on exciting advertising campaigns with many key media agencies.”

MELISSA CHRISTIDIS
Master of Communications and Media Studies

LEARN FROM THE BEST

Our program is led by teachers with substantial industry experience in journalism, radio, public relations and film, in addition to their academic credentials and cutting-edge research into rapidly transforming media and communications. They teach topics that are reflective of this contemporary, dynamic industry, and will introduce you to the latest developments and research in communications and media.

Dr Maura Edmond
Program Director

Dr Maura Edmond is a Lecturer in Media Studies at Monash University and the Program Director of the Masters of Communication and Media Studies (MCMS). Her research explores the sociology of creative scenes and media subcultures, and has examined music, art, podcasting, fashion, film and fandom from this perspective. Maura has also worked as a programmer, writer and editor for a wide range of cultural organisations and publications. Her work has been published in New Media and Society, Television and New Media, The Routledge Handbook of Global Cultural Policy (2018) and in digital outlets, magazines and newspapers around the country.

Advanced expertise

A truly international experience
The Master of Communications and Media Studies offers you a thoroughly international study experience – from the curriculum through to the classroom and then on to field experiences in cities such as Shanghai. With a broad international cohort, you’ll be able to draw on the global media experiences of your peers to learn first-hand experiences of how communications is helping to revolutionise global cultural movements such as the Arab Spring.

Our industry connections can advance your career
Monash has strong connections with influential organisations such as News Ltd, Fairfax, Channel 9 News, the ABC’s Q&A, The Drum, Lateline, Triple J and Radio National, Essential Media Communications, Foxtel, Nova radio, GetUp, Centre for Policy Development Channel 10 and Southern Cross Austereo. These connections not only provide internship opportunities, they also help to increase the visibility of our graduates within industry and contribute to strong employability after graduation.
Become a leading voice in one of the most exciting and innovative sectors of the contemporary world with Monash’s groundbreaking Master of Cultural and Creative Industries.

Key to the future of developed and developing countries, this interdisciplinary program provides you with a critical overview of a rapidly-growing sector and its many employment opportunities. You’ll get a detailed understanding of this dynamic sector in close contact with a range of industry professionals and real-world projects from Australia and overseas. Whether exploring creative clusters in Melbourne and Shanghai, or understanding the business models of global digital industries, our agile content will prepare you for a career in this expanding sector.

Who is the program suited to?
This course is intended for all who want to work in the arts, cultural and creative industries; in the public, independent or commercial sectors; in cultural policy and industry governance; in urban cultural regeneration and branding; or in culture and development projects. It provides project-workers and creative entrepreneurs with the big picture and informed insight they need to turn their passion into a successful self-directed career.

How will the course help advance your career?
The Master of Cultural and Creative Industries will give you a clear grasp of the structures and dynamics of this fast-moving sector and how you can make a real difference within it. Our program involves practitioners and industry experts, field trips and concrete case studies, capped by the kind of analytical and empirical research required for contemporary employment in policy, arts, business and social enterprise.

The course will help you to develop an advanced understanding of the distinctiveness of cultural and creative industries business models, and of the economic, cultural and urban policy settings in which they operate. You’ll gain insight into how to initiate and manage projects, and how to evaluate their success. As a program closely tuned to the specific character of this sector, it’ll equip you with skills of independent problem-solving and entrepreneurship, report writing and analysis which will allow you to forge a rewarding career in this rapidly evolving field.

Industry connections and internships
The program benefits from strong industry engagement, including an industry advisory panel and an impressive list of international guest lecturers from the field, including:
- Creative Victoria
- Australian Centre for the Moving Image (ACMI)
- Collingwood Arts Precinct (a new creative workspace)
- Renew Australia
- Creative Economy Australia
- Tasmanian Department of State Growth
- Shenzhen and Shanghai Maker Space
- BOP Cultural Consultancy, China
- Marcus Westbury, Renew Newcastle and Collingwood Arts Precinct
- Ben Eltham, journalist and cultural policy expert
- Raj Isar, UNESCO expert, American University Paris
- Avril Joffe, lead policy advisor to South African government
- Helene George, Indigenous cultural development expert
- Dan Baron Cohen, Culture and Development expert from Amazonia, Brazil
- Dan Hill, Arup Digital Lab, London.

Melbourne is Australia’s cultural capital, and Victoria is the leader in creative industries strategy and investment. You’ll have the opportunity to get up close to many of the existing projects in the city, region and across Australia through our field trips and site visits.

Our city lab in Shanghai, and our intensive culture and development workshops, add a strong international dimension to the course. Building on our strong links to UNESCO and the policy agencies, our international network of cultural creative industry leaders, and research collaborations in China, the UK and South Africa, this master’s can link you to researchers and policy makers across the globe. You’ll be able to leverage this global network to undertake international internships.

Further information: monash.edu/study/course/A6004
LEARN FROM THE BEST

You’ll have the opportunity to learn from a passionate team of innovators in this area. Our lecturers conduct research on Australian and international cultural policy, urban regeneration and cultural clusters, cultural and creative industries, art museums and live music venues, creative workers, community arts, sports media and computer gaming, among others. They promote an active and thriving culture of academic inquiry which will help to inform your practice throughout your career.

Dr Xin Gu
Program Director

Dr Xin Gu is a leading researcher in the convergent field of culture, economy and digital technology, and making them relevant to the Asian Century. She has a strong policy and industry engagement record. She worked with UK policy initiatives designed to support local creative industries development, including Creative Industries Development Services (CIDS) and Forum of Creative Industries (FOCI) in the UK. She has also worked closely with key agencies charged with the development of creative industries in cities in China and Australia, witnessing the transformation of cities and narratives of ‘creative industries’ under different social, economic and political conditions.

Core master units Elective units Advanced expertise

Shanghai City Lab

Don’t miss this unique opportunity to explore one of Asia’s most exciting cultural metropolises. You’ll receive lectures from Monash staff alongside guest experts from local universities, and undertake fieldwork in the city alongside local students. You’ll also be introduced to a range of Chinese and international creatives working in the local cultural sector who’ll give you an insight into the cultural success story behind one of China’s largest global cities.

A unique course informed by industry experts

Monash was the first Australian university to have a master’s program in the rapidly-emerging cultural and creative industries sector. Because the field is constantly evolving, content within units changes each year to stay abreast of the latest developments. Input from an advisory board made up of national and international experts ensures this agility for the course to remain at the cutting edge.
Humanity is developing at a speed which is causing widespread environmental, economic and social challenges for sustaining life on Earth, making it vital for us to change and adapt in all aspects of how we work and live.

We’ve developed a master’s degree that draws on skills from many disciplines to build on your passion to transform society through sustainable solutions.

It’ll give you the training, language and tools to be a leader in a rapidly-growing field. You’ll explore trends, issues and the science underlying global sustainability problems, and learn how to evaluate, analyse and collaborate across sectors to effect change.

The Master of Environment and Sustainability is a collaboration between Monash Arts, Monash Science, the Monash School of Business and the Monash Sustainable Development Institute.

Tailor your program to suit your interests
The program has core units that allow you to analyse how nature, society and the economy interact and depend on each other, then you choose one of five specialisations.

You can develop your practical skills through project work or an internship. If you’re interested in research, completing a thesis will help you move into a PhD.

Environment and governance
Governments, markets and civil society play important and interrelated roles in the governance of the environment.

This specialisation will develop your understanding of policy and governance to enable change and responsible action to support sustainability. It’ll also enable you to understand how change occurs from the scale of the individual through to the broader society, and from local to national and international scales of governance.

Corporate environmental and sustainability management
This specialisation explores the complex mix of social, environmental and economic sustainability challenges and opportunities faced by organisations. You’ll learn how to design, implement and facilitate strategies and solutions in corporate management for sustainable and accountable development.

International development and environment
Poor and developing nations are often the hardest hit by environmental changes. To achieve sustainable development these communities need tailored, transdisciplinary solutions beyond simple environmental protection.

This specialisation will develop your knowledge and skills to analyse the causes of poverty, disadvantage and environmental change, and to work effectively with a wide range of groups to plan and implement development that’s environmentally sustainable.

Environmental security
There’s a global need for scientifically literate professionals to interpret and translate reliable scientific evidence about environmental security for groups as diverse as local communities and international corporations. This specialisation gives you the knowledge and understanding to guide the sustainable use of resources, protect the natural environment and integrate this into policy and management.

Leadership for sustainable development
Globally there’s an increasing demand for professionals from a range of disciplines, organisations and sectors who are able to collaborate, lead and deliver change for sustainability. This master’s equips you with holistic theoretical insights, analytical skills and practical capacities to guide, influence and lead processes aimed at creating positive social, environmental and economic outcomes.

Further information:
monash.edu/study/course/S6002
LEARN FROM THE BEST
As a student in the Master of Environment and Sustainability you’ll be learning from global and professional experts from multiple disciplines and sectors. Our people are leading the agenda in Australia and internationally.

Dr Susie Ho
Program Director
In this course, you’ll become part of a community of like-minded people, passionate about creating sustainable solutions. Our students and researchers bring different disciplinary and professional backgrounds to the table. We see this as a strength. Complex global problems require interdisciplinary collaboration. In order to turn your passion into action, you’ll need to understand the different ‘languages’ of scientists, policy-makers, economists, and more. This course will develop your capacity to effectively translate and integrate your niche expertise across disciplines, sectors and national borders. Get involved.

How will the course help advance your career?
Over the past two decades the sustainability job market has been rapidly rising. Corporations including Siemens, Unilever, Google and General Motors have created chief sustainability officer positions. There has also been growth in sustainability roles in all sectors of government, national and international NGOs, in universities, research centres, think tanks and consulting.

Global transitions to sustainable pathways will open new opportunities for well-prepared, creative and ambitious individuals. You’ll learn how to analyse change to identify and take opportunities as they emerge.

You can use your new skills to advance sustainability solutions in your current sector or move into a new career. It might be in governance and regulatory advice, capacity building, public education, environmental security or human rights. The opportunities are growing each day.

Industry connections and internships
All specialisations offer you the chance to work in an interdisciplinary real-world context through our internship program. You’ll have the opportunity to combine theory and practice, build industry networks and gain valuable on-the-ground experience in responding to local and global issues across a range of sectors.

The program also incorporates regular industry presentations from a range of corporations, government departments and NGOs. This high level of industry engagement throughout the course will give you cutting-edge insights into how academic concepts are being applied on the ground to create more innovative and sustainable communities.

GRADUATE CERTIFICATE OF FAMILY VIOLENCE PREVENTION

Build skills in a range of practice areas, including understanding social patterns, criminal justice responses, health aspects and databases covering gendered family violence.

About the course
Globally and nationally, Family Violence Prevention (FVP) is recognised as a critical area for social change and transformation. There is increasing recognition among local and international governments and other bodies of the need for high level skills in family violence prevention to address this global social problem and achieve sustained change.

The course is designed to support social transformation for a violence free future, and will build your skills in a range of practice areas including gender equality for primary prevention, child safety, men’s behaviour change, health impacts of family violence, family violence in the criminal justice system and working with those affected by family violence.

What will you study?
Drawing on expertise across Monash University and key relationships with stakeholders and practitioners, the course is delivered through a multi-faceted approach including problem-solving, peer and team learning and blended learning platforms.

You will complete four core units with a focus on understanding the social underpinnings of family violence and criminal justice responses, as well as the role of health systems in the prevention of family violence.

Progression to further studies
On successful completion of the Graduate Certificate you may be eligible for admission into the Graduate Diploma of Family Violence Prevention, with credit.

LEARN FROM THE BEST

As a student in the Graduate Certificate or Graduate Diploma of Family Violence Prevention you’ll be taught by key researchers from across the university working on family violence reform and prevention with state and national organisations. Supporting your studies are practitioner experts and a range of visiting international experts.

Professor JaneMaree Maher
Program Director

JaneMaree is Professor in the Centre for Women’s Studies and Gender Research, Sociology in the School of Social Sciences. Her research is focused in two key areas of gendered social science: women’s work and family, and gendered violence. Her research critically examines how social institutions such as families and the criminal justice system create gendered inequalities and inequities.
GRADUATE DIPLOMA OF FAMILY VIOLENCE PREVENTION

Deepen your skills and understanding of key social frameworks underpinning gendered family violence, as well as family violence prevention and professional practice and the law.

About the course
Globally and nationally, Family Violence Prevention (FVP) is recognised as a critical area for social change and transformation. There is increasing recognition among local and international governments and other bodies of the need for high level skills in family violence prevention to address this global social problem and achieve sustained change.

The course is designed to support social transformation for a violence free future, and will build your skills in a range of practice areas including gender equality for primary prevention, child safety, men’s behaviour change, health impacts of family violence, family violence in the criminal justice system and working with those affected by family violence. You will have the opportunity to apply your skills via professional practice and a practicum.

What will you study?
Drawing on expertise across Monash University and key relationships with stakeholders and practitioners, the course is delivered through a multi-faceted approach including problem-solving, peer and team learning and blended learning platforms.

You will complete six core units with a focus on understanding the social underpinnings of family violence and criminal justice responses, as well as the role of health systems in the prevention of family violence. You’ll also complete a family violence prevention practicum.

Industry connections and practicum
The course draws on long-established deep relationships between Monash researchers, government, and a range of key professional organisations and non-government actors in the fields of family violence prevention, health, and law.

You will conclude the Diploma with a placement unit/practicum which will offer exposure to family violence prevention practice and develop skills for you to respond critically to the current and future needs of your industry.

LEARN FROM THE BEST

Monash GPS’ vision is to provide research evidence to support the integration of gender perspectives in peace and security policies in Australia, Asia and the Pacific, and globally.

Associate Professor Katrina Lee-Koo
Program Director

Director of the Graduate Certificate in Gender, Peace and Security and deputy director of the Monash Gender, Peace and Security research centre, Katrina’s work focuses upon the experiences of civilian groups in conflict, conflict prevention and peace building, with a particularly focus upon women, youth and children. She also works on the translation of the Women, Peace and Security, and Youth, Peace and Security agendas into policy and practice.
Monash stood out to me because it was very practical about how you apply what you learn. There were lots of opportunities to get practical experience and skills in project management and research and development.”

AMANDA TAYLOR
Master of International Development Practice
Help to address the multidimensional challenges of our globalised world with this inspiring program – designed specifically for students who want to make a difference through their careers.

The Master of International Development Practice focuses on understanding and tackling the political, economic, cultural and ecological issues that can lead to extreme poverty, poor health, fragile governance, inequality and environmental vulnerability. Delivered by specialists and industry experts, the course combines a multi-disciplinary approach to the theory and practice of sustainable development, and offers opportunities to learn through international field trips and internships. You'll graduate with a practical understanding of complex political situations and a qualification which will equip you with the analytical skills to respond to crises as they unfold.

Tailor your program to suit your interests
The Master of International Development Practice enables you to tailor your program to suit your area of interest and career aspirations, with electives available in the humanities, social sciences, medicine, business and economics, education and law. You may also choose to focus your electives in one of the six streams below.

These streams help meet the United Nations Sustainable Development Goals.

Democracy, justice and governance
Gain an understanding of policy-making and issues of conflict and post-conflict transition, governance, human migration, human rights, and international trade. Study areas will focus on analysing and evaluating policy, regulations, institutions and normative arguments.

Crisis, change and management
This study stream allows you to engage with the complexity and challenges of crisis situations and the aftermath, including humanitarian, disaster, social, political and security issues. Understand the complexities of organisational problem-solving, disaster preparedness and community resilience.

Gender, peace and security
Build your knowledge of debates and discourses on conflict, security and gender as they pertain to war, conflict, peace, human rights and the global political economy. This knowledge will enable you to reflect on the gender implications in contemporary international politics, policy and programming.

Sustainable resource management
Develop an understanding of the key environmental challenges of our times, analyse the theoretical and empirical basis of resource management issues, and examine issues of governance, urbanisation, and corporate social responsibility.

Language and culture
You'll develop basic competency in Chinese, Japanese or Spanish, while examining key issues in inter-cultural communication in real life settings.

Field studies for development
Undertake an international field trip to a host country in Asia, the South Pacific or Eastern Europe. You'll have the option of exploring and understanding sustainable development issues relevant to the host country. Alternatively you'll be challenged with a field research project, to undertake field site visits, gather data, and develop an understanding of ethical issues of field research.

How will the course help advance your career?
The course will help you to develop a critical understanding of the political, economic, cultural and environmental challenges to human inequality. Using an appreciation of best practice approaches within the field, you'll be able to identify complex sustainable development challenges across diverse cultural and geo-political contexts. You'll learn directly from leading researchers and practitioners in the field, and will combine this academic insight with a high level of industry integration to give yourself a competitive advantage in the workforce.

The classroom within the Master of International Development Practice acts as a micro-organism of the real world. Through academic and practitioner mentoring, a strong emphasis is placed on applied skill acquisition including in the areas of ethical design, management, research, evaluation, communication and policy in development practice.
Industry connections, field work and internships

The ability to apply your understanding of theory into practical, real-world situations is one of the key strengths of this course — helping you to develop both work-ready skills and industry connections. Students gain leadership experience through their membership of the Master of International Development Practice Association, representation on our Advisory Board, and integration into the Global Master of Development Practice Association student network.

We aim to develop and mentor student leaders through our many sector partnerships and mentoring programs such as Colab m which matches students with a development practitioner from around the world based on shared interests.

Our students have completed internships at Oxfam, Human Rights Watch, the Red Cross, WhyDev, Global Citizen, the Humanitarian Advisory Group and Monash University’s own student-run social enterprise SEED.

Our Advisory Board members are drawn from public and private sectors and contribute their expertise to our course design.

Mentoring is a strength of our program

Our mentors are passionate about improving the human condition and nurturing the next generation of students who’ll further contribute to this fast growing sector.

We mentor and develop student leaders through our sector partnerships and mentoring programs such as Colab m.

“Before this I thought mentoring could help you to improve yourself, but now I know it’s not only about that, but also helps you to see the real world out there and helps you adjust yourself to the real world.”

COLAB M MENTEE

“Being assigned a mentor and having managed to build a solid relationship with her makes me feel less nervous about the sector. It’s very important to be connected with someone who can be a friend, a supporter as well as a magnificent source of knowledge.”

COLAB M MENTEE

Dr Sara Niner
Program Director

Dr. Sara Niner is co-ordinator of the Masters of International Development and is a critical development studies scholar who has undertaken primary field research in developing country contexts. She is an expert in the field of gender and development with a long-term interest in those issues in the post-conflict environment of Timor-Leste and is widely published in this field. As a regional gender expert, Dr. Niner has worked and reported on gender issues in S. E. Asia for local and international development agencies. She has worked in solidarity with the Timorese community in Australia since 1991 and as a consultant in Timor-Leste since 2000.
This course offers you a window into the diverse and dynamic world of politics in the 21st century. The program is defined by the big questions shaping our world – from global justice to war, peace, social movements and interstate relations. You’ll graduate with the skills to confidently analyse key global issues in a conceptual context, with a focus on the concepts of power, security, sovereignty, risk and uncertainty. With the opportunity to specialise in your area of interest, and to learn from some of the world’s leading political thinkers, this program will provide you with an internationally-respected qualification which will open doors within both the public and private sector.

**How will the course help advance your career?**
The Master of International Relations encompasses analysis of complex political, social and strategic problems, as well as the development of the skills needed to communicate this analysis – providing you with the basis for an intellectually engaging and rewarding career. This highly-regarded program combines rigorous engagement with industry with the best of academic theory and critical thought. Upon graduation you’ll enter the industry with a highly-respected and relevant qualification which will prepare you for leadership in a diverse range of career paths – from all levels of government to NGOs, academia and public and private sector organisations both in Australia and around the world.

**Internships and international opportunities**
Engaging with the international community and the experience of attending international field schools is an integral part of becoming a future leader in global affairs. Our field unit and internship program enables you to build practical experience as well as valuable networks both here and abroad.

Through our network of industry connections, we offer opportunities to observe policy-making first-hand in heart of the Western security complex in Washington, D.C. Our internship program lets you gain academic credit while working for key employers in the public and private sectors, including foreign consulates, development NGOs, national media outlets, and state-level government agencies.
LEARN FROM THE BEST

Our academics are passionate about guiding International Relations students into roles that promote social change and really make a difference to the world. The supportive learning environment helps to ensure you benefit directly from the knowledge and insights of our highly-experienced academic team. You’ll learn from leaders in the field who are all highly regarded experts sought after for their expertise to help solve political, humanitarian and ethical issues nationally and internationally. The public outreach of our academic staff in turn helps to increase the profile of our graduates within industry, contributing to the high degree of respect for your qualification within the marketplace.

Dr Bill Flanik
Program Director

Dr Flanik specialises in international relations, peace and conflict studies, and U.S. foreign policy. He has published in Foreign Policy Analysis, the Oxford Handbook of Foreign Policy Analysis, and SAGE Research Cases in Politics and International Relations. In addition to his work questioning how the US national missile defense policy was revived, he’s also working on studies involving metaphors of teaching and learning, cross-cultural perceptions of active learning, and presentation design.

Dr Booke Bolander
Program Director

Dr Bolander’s major research interests include the sociolinguistics of globalisation (with a particular focus on English in multilingual contexts and language and transnationalism) and digital discourse; and she has researched and published widely in these areas.

Double master’s degrees

Double master’s with a Master of Journalism

If you’re looking to enter the field of professional journalism, a Master of Journalism and Master of International Relations double degree provides a comprehensive introduction to the international political system. The program is designed to optimise the contribution you can make as a journalist, using a full range of media technologies and insights into approaches to international relations.

monash.edu/study/course/a6011

Complete a double master’s with Shanghai Jiao Tong University

Offering a truly international perspective, this double degree course immerses you in two cultures. It combines the Master of International Relations at Monash with the Master of Arts in Chinese Politics and Economy from Shanghai Jiao Tong University. Completed entirely in English you’ll study one year at Monash University in Australia and one year in Shanghai. On successful completion, you’ll not only have the invaluable international insights this experience offers, but you’ll also be eligible to graduate with degrees from both institutions.

monash.edu/study/course/a6013

I was offered an internship in Geneva in the field of risk management. I’m finding the work to be incredibly interesting and feel the course prepared me with the skills that I now apply in my research and job.”

ARTEMIS NIAROS
Master of International Relations
CAREER OUTCOMES
- State, regional and national tourism
- Management consultancy
- Advertising and marketing
- Adventure tourism
- Events management
- Cultural institutions
- Airlines, airports and tourism agencies
- Local government tourism agencies

Further information:
monash.edu/study/course/A6012

Prepare yourself for an international career in tourism management with Australia’s leading and most innovative industry-focused specialist tourism program.

The current era of rapid global change is increasing demand for highly-skilled managers in the international tourism industry in the areas of media and communications, public relations, advertising, market research and development. The Master of International Sustainable Tourism Management will prepare you for success by equipping you with skills and expertise in domestic and international marketing, environmental studies, information technology, cultural heritage studies and development, special events and planning.

This truly global program will see you undertake international field trips, investigate best practice international precedents and study alongside students from around the globe – helping to build the cross-cultural skills which underpin a successful career path in tourism.

About the course
Sustainability represents an increasingly influential facet of tourism planning, development, governance and management. The Master of International Sustainable Tourism Management is designed for those who wish to engage their entrepreneurial spirit and focus on the marketing and management side of the industry. You’ll develop an in-depth understanding of the structure of the tourism industry, with a strong focus on the business and economic aspects of tourism.

You’ll also gain a deeper understanding of environmental, economic and social sustainability strategies for the tourism industry.

This course draws on best practice within the tourism industry – including policy governance and research – to develop a critical understanding of the relationships between tourism and sustainable development. The program has a particular emphasis on emerging economies and the development of small and medium-sized enterprises within them. It explores tourism’s potential to be compatible with the development of sustainable organisations, urban and rural regeneration, natural resource management and wildlife conservation, and the diversification of benefits from international and domestic tourism.

How will the course help advance your career?
The Master of International Sustainable Tourism Management will prepare you for leadership in this growing industry by equipping you with the planning and policy expertise to manage the environmental, socio-cultural and economic impacts of international tourism. The course will give you a broad and deep understanding of global business activity, and of the conceptual and applied issues involving tourism and sustainability.

You’ll benefit from the combined insights of an innovative curriculum, expert teaching staff, on-the-ground international perspectives and active industry engagement – which will ensure you graduate with both the theoretical framework and practical skills to make a significant impact through your career.

Where can this course take you?
Monash graduates have gone on to achieve enormous success globally at organisations such as:

- Tourism Australia (Australia, UK, Hong Kong, USA and Germany)
- UNESCO
- United Nations World Tourism Organisation
- Tourism Victoria, Tasmania, Queensland and Northern Territory
- Federal Department of Immigration
- Lonely Planet
- Melbourne Airport
- Tourism Ireland
- Melbourne Museum
- Melbourne Convention and Exhibition Centre
- Intrepid Tours
- Roy Morgan Research
- Ministry of Tourism (Tanzania)
- Stockholm Convention Bureau
- Tourism Chile
- Abu Dhabi Tourism Authority
- Sheraton Hotels and Resorts.
LEARN FROM THE BEST

As a student in the tourism program, you’ll be taught by academic staff members who are widely regarded as research pioneers in the field of high-yield, independent travel, the associated impacts on urban tourism and the development of small and medium-sized enterprises.

Our teaching staff members undertake industry-funded research projects, both locally and internationally. This ensures that you’ll be exposed to the very latest developments in the field and be taught by academic staff at the forefront of their industry.

These active research links shape our curriculum and ensure its contemporary relevance to provide you with the best employment and research opportunities.

Dr Jeff Jarvis
Program Director

Dr Jarvis has extensive research and consultancy experience in tourism development, and has undertaken research projects in association with professional tourism organisations in Australia, Sweden, Vietnam, Cambodia, Fiji, Estonia, the United Kingdom, Kenya and the United Nations World Tourism Organisation (UNWTO).

He has an industry background in international marketing and advertising, and has developed an international research reputation in the high yielding segment of independent travellers and backpacker tourism following the publication of his report *The Billion Dollar Backpackers*.

**Master of International Sustainable Tourism Management**

*Indicative course structures – other options are available.*

1-year structure / 48 points – entry with a recognised honours degree in a related field

- APG5555 Digital tourism economy
- APG5389 Tourism industry and marketing (12 points)
- APG5077 Cultural and nature based product management
- APG5717 Applied industry research and practice (12 points)

1.5-year structure / 72 points – entry with a previous qualification in a related field

- APG5555 Digital tourism economy
- APG5389 Tourism industry and marketing (12 points)
- APG5077 Cultural and nature based product management
- APG5717 Applied industry research and practice (12 points)

**Course capstone unit (12 points) + Sustainability electives (12 point, or Research thesis option (24 point thesis or two x 12 point theses)**

2-year structure / 96 points – entry with a previous qualification NOT in a related field

- APG5555 Digital tourism economy
- APG5389 Tourism industry and marketing (12 points)
- APG5077 Cultural and nature based product management
- APG5717 Applied industry research and practice (12 points)

- APG5609 Sustainable tourism development and planning, or ENS5010 Global challenges and sustainability, or ENS5020 Perspectives on sustainability (12 points)
- Capstone (12 points)
- Course capstone unit (12 points) + Sustainability electives (12 points), or Research thesis option (24 point thesis or two x 12 point theses)

International field trips

Through the Monash Abroad travel grant you’ll be able to participate in our international industry engagement program.

You may choose to spend a semester on an industry research internship in Estonia and Latvia; attend the world’s largest tourism fair at ITB Berlin; or participate in a tourism development field-school in Fiji.

These unique opportunities will give you unprecedented insight into the world of international tourism, embedding real-world experience into your qualification to give you an added advantage when establishing your career.

Industry connections

This course is supported by an international industry advisory board with representatives from government, international universities, the private sector, management consultants, operators and media companies. This advisory board regularly reviews and informs the direction of the program to ensure it remains on the cutting-edge of industry developments.

Throughout your studies, you’ll also hear directly from workplace leaders through our industry seminar series. You’ll have the opportunity to actively engage with these global experts and will be further supported to arrange work placements throughout your time at Monash.
Establish an in-demand international career through interpreting and translation in our increasingly globalised world.

With the highest level of industry accreditation available in Australia, this course will not only give you the credentials to instantly engage with industry, it’ll also equip you with the advanced technical and analytical skills required for success across a range of professional contexts.

**Which program is for me?**
This course offers two specialisations depending on your area of interest.

**Translation**
This will equip you for work in areas where written translation and writing skills are required, such as literary and cultural translation, cross-cultural communication, business, law, science and technology, publishing, editing and journalism. This stream also focuses on research methodologies for those who want to pursue doctoral studies in translation studies.

Languages include Chinese, French, German, Indonesian, Italian, Japanese, Korean, Russian and Spanish.

**Interpreting and translation**
This will equip you for work in areas where interpreting (verbal translation) and cross-cultural skills are required, such as in health care, law, business, court and education, as well as in diplomacy, international meetings and conferences. Training is bidirectional and in two languages, and prospective students must be highly proficient and able to converse fluently in both. In addition, the (written) translation component will equip you for work in areas where written translation is required, including cross-cultural communication, business, law, science and technology.

Languages include Chinese, French, German, Indonesian, Italian, Japanese, Korean, Russian and Spanish.

**DID YOU KNOW?**
**Fee assistance**
The course is approved by the Australian Government for Centrelink benefits for domestic students. These include Youth Allowance, Austudy, Abstudy and the Pensioner Education Supplement.

**Further information:**
[monash.edu/study/course/A6007](http://monash.edu/study/course/A6007)
**LEARN FROM THE BEST**

You’ll have the opportunity to learn from expert staff with renowned academic and industry credentials. All language streams are taught by experienced translation and interpretation practitioners who bring an understanding of theoretical concepts and practical knowledge of their real-world application. Our award-winning academic team is committed to strong engagement with the language services industry, and their insights, networks and leadership will prepare you for a rewarding career.

Monash University is also a national centre for scholarly and applied research, with more than 20 PhD students in the field. The University attracts national and international research students who help to build a culture of academic enquiry and advancement throughout the school.

**Double master’s degrees**

The Master of Interpreting and Translation Studies can be taken as part of a double degree course with the following universities:

- Jean Moulin Lyon III (France)
- Kobe City University of Foreign Studies (Japan)
- Università degli Studi di Trieste (Italy).

In each case you’ll study one year at Monash in Australia and one year at the partner university. You’ll receive two master’s degrees, one from each institution. The double master’s courses give you an unparalleled opportunity to expand your language skills, engage with international experts and to enhance your employment prospects on a global scale.

[monash.edu/study/course/a6023](monash.edu/study/course/a6023)

---

**Study intensively and complete your course quicker**

You can choose to undertake the 2 year (96 point) program intensively and complete within 1.5 years.

---

**Industry endorsement**

Our course is endorsed at the Certified Translator, Certified Advanced Translator, Certified Interpreter, Certified Specialist Interpreter (Legal), Certified Specialist Interpreter (Health), and Certified Conference Interpreter levels by the National Accreditation Authority for Translators and Interpreters (NAATI).

Monash is also the only university in Australia to be a member of the Conférence Internationale Permanente d’Instituts Universitaires de Traducteurs et Interprètes (CIUTI), the world’s oldest and most prestigious international association of tertiary institutions offering degrees in translation and interpreting.

---

**Dr Leah Gerber**

Program Director

Leah is a senior lecturer in the Translation and Interpreting Studies program at Monash University. She teaches translation theory, research methods and German–English translation. Her research concentrates on literary and cultural translation, with a focus on Australian children’s texts and their transfer into German. Leah’s monograph, *Tracing a Tradition. The Translation of Australian Children’s Fiction into German from 1945* was published by Röhrig Universitätsverlag in 2014. Leah is also the current Editor of the literary translation journal *The Aalitra Review.*
Help to inform and shape the future with a career in the innovative world of contemporary journalism.

Technology has transformed the traditional model of mainstream media – opening up the most exciting opportunities for storytelling in the history of journalism. As a journalist today, you’ll find yourself at the edge of a golden age where all modes of media can be combined to tell your story to wider audiences than ever before. Traditional frameworks have been broken down, with today’s independent journalists having as important a role as ever in scrutinising those with power and influence and holding them to account.

This cutting-edge course, taught by renowned industry experts in our new Media Lab, will prepare you for a dynamic career as a multifaceted journalist in the contemporary digital age.

Who is the program suited to?
The course is designed for people looking to establish a career as a journalist, or in related areas such as public relations, speech writing or communications. Some students are continuing their studies in journalism, while others come to the course from undergraduate degrees in different disciplines – looking to combine specialist interest areas such as science or economics with a journalistic voice.

The program is flexible to suit all levels of industry experience – from those at the beginning of their careers to qualified journalists who are looking to extend their skills and intellectual understanding of the field. Whatever your background, you should be prepared to start publishing your writing within the first few months of study.

How will the course help advance your career?
The program provides you with the opportunity to work with award-winning journalists and academics with strong industry links, as you cultivate high-level skills in research and reporting across all media – print, digital, radio and video – and explore the role of the media in contemporary society. The course will equip you with the investigative, ethical and storytelling expertise necessary to uncover stories and understand audiences. Importantly, the program also recognises the changing role of journalists today and is designed to prepare you with resourceful skills in freelancing, marketing and running a business.

As a Monash journalism student, you can be confident of graduating with a qualification that is respected both in Australia and internationally. The course is practical and industry-focused, giving you strong job-related outcomes. You’ll benefit from hands-on learning within our state-of-the-art Media Lab facilities – which will give you the tools to navigate the new, high-tech world of media and journalism. You’ll learn from Walkley-award-winning professionals and will follow in the footsteps of leading alumni such as Waleed Aly and Michael Rowland. Indeed, our Journalism graduates have gone on to work for influential media outlets and corporate organisations, including:

- ABC
- The Age
- Herald Sun
- Meld magazine
- Sony
- Ten Eyewitness News
- The Courier-Mail
- The Examiner
- The McPherson Media Group
- Toyota
- Westfield
- Nova 100
- Austereo
- Cricket Australia
- Telstra
- Crickey
- The Conversation.

Industry connections, internships and publishing work
The Master of Journalism program is designed for students to become actively engaged with industry. Through our popular internship subject we’ll support you to work for a minimum of four weeks full-time in one of a wide range of media outlets, from mainstream newspapers to niche websites specialising in areas such as environment, arts and fashion. In this time you’ll learn about the workplace culture of the media, hone your writing, interviewing and video/audio/ multimedia skills, and make invaluable contacts for the future.

We work closely with leading media industry players to ensure the program is current and relevant. Our close relationship with the Melbourne Press Club and the professional networks of our teaching staff also provide you with further opportunities to engage with industry throughout your studies.

Most importantly, your work will be extensively published through both university and independent channels during your time at Monash – experience which is regarded as the single biggest factor in preparing you to step into employment.
LEARN FROM THE BEST

The Master of Journalism at Monash gives you access to some of the most acclaimed academics in media, film and journalism, not least due to their strong relationships with the media industry globally and experience on the field spanning senior editorial backgrounds, multimedia publishing and as award-winning international journalists.

Associate Professor Johan Lidberg
Program Director

Associate Professor Lidberg has extensive experience in the journalism industry both in Australia and internationally. He has worked as a reporter, presenter, foreign correspondent and news director for the Swedish Broadcasting Corporation and as a freelance radio producer for the Australian Broadcasting Corporation. He has also done several stints with the United Nations Peace Keeping forces in various media roles. Apart from his journalistic work, his academic research work is in the areas of information access, media accountability and media coverage of climate change.

- Capstone (12 points)
- Course electives (24 points), or Complementary electives (24 points), or Research thesis (24 points)

Double degree options

Master of Journalism + Master of International Relations

Designed for those interested in working in journalism in the international field, this double degree program provides an insight to some of the key issues in international relations together with an opportunity to work with award-winning journalists and academics as you cultivate high-level skills in research and reporting across all media – print, online, radio and video.

monash.edu/study/course/a6011

Master of Journalism + Warwick University Master of Arts

Over two-and-a-half years, you’ll undertake studies in journalism at Monash and select from one of the nine streams available in the Master of Arts program offered through Warwick University (UK) Department of Politics and International Relations. You’ll conclude the double master’s program with a dissertation jointly supervised from Monash and Warwick, and graduate with the Monash Master of Journalism and the Warwick Master of Arts in your selected field.

monash.edu/study/course/a6015

Monash Media Lab

The Media Lab in the School of Media, Film and Journalism offers Monash students frontline access to innovative teaching and production facilities, including:

- radio/sound production studios with an adjacent control-room and audio production
- an open-plan newsroom
- a broadcast TV and video production announcer desk with mobile tripod mounted cameras, overhead lighting grid and full sound and vision cabling and graphics screen
- laboratories with computer terminals, e-lecterns, interactive screens and optical-fibre cabling.

arts.monash.edu/monash-media-lab
MASTER OF PUBLIC POLICY

Make a positive impact. Create meaningful change with lasting influence on individual lives and communities. Build a rewarding career in government, non-profit or corporate sectors.

The Master of Public Policy builds practical knowledge and skills for professionals in policy-making and management across the spectrum of public sector activities. The course will develop your understanding of the politics and processes of policy formation, the delivery of policy programs, and the political and structural realities that can influence such decision-making.

Tailor your studies to suit your career needs

Public policy is a multidisciplinary course at the intersection of study of public policy theory and practice. Combining expertise from across the University (social sciences, health, law, science, urban planning, business and economics), and building your understanding of critical issues in public policy, governance and policy evaluation, you’ll have the opportunity to use your course electives to complete a targeted policy focus in one of the following areas:

• Cultural and creative industries
• Diplomacy and trade
• Health and social policy
• Organisational leadership
• Public administration
• Public finance
• Regulatory policy
• Sustainability and the environment
• Transport
• Urban policy.

Alternatively you may choose to broaden your degree across any of the above, or complete a research thesis with a PhD pathway, or take selected complementary elective units from any of the other master’s by coursework degrees offered in the faculty.

To complete your studies you’ll undertake a capstone unit in the form of a professional internship, a research project or an international study tour.

How will the course help advance your career?

The Master of Public Policy equips you for a career in public, not-for-profit or private sector agencies involved in policy and service delivery at intergovernmental, national, or regional government levels.

Graduates of the Master of Public Policy will be skilled to work in policy areas across both the public and private sectors, from government organisations, multi-nationals through to independent consultancies. This degree will equip you with industry-relevant specialist skills to prepare you for working and living in a world of constant technological, environmental, political and population change.

The course is designed to ensure graduates will make an excellent contribution to their profession using the full range of skills to critically evaluate evidence, develop and support arguments, conduct research using a variety of methodological approaches, advanced oral and written communication, and an understanding of the possibilities and challenges of public policy practice and reform.

In my role, public policy is about clearly defining issues, looking at them from every angle, articulating a response, then advocating on behalf of those who don’t have a seat at the table. If you enjoy being at the cutting edge of important conversations and decisions that have the potential to change the direction of national, regional or local policies and programs, then specialist studies in public policy is a path well worth considering.”

PETER NEWLING
National Manager, Public Policy
Maurice Blackburn Lawyers

Latin America study tour

Taught in Santiago, Chile, by expert faculty and high level practitioners, this two-week study program explores policy challenges and opportunities in the growing economic power of Latin America. The program offers you immersion in the rich cultural landscape of Latin America while observing first-hand the political, economic and business dynamics of a region in transition.

LEARN FROM THE BEST

The teaching in the Master of Public Policy reflects the breadth, depth and standing of Monash as a world-class university. With teaching staff drawn from faculties across the university, you’ll learn from recognised public policy experts specialising in key policy domains, including sustainability and the environment, urban policy, health, public finance, transport and infrastructure, diplomacy and trade, regulatory policy and organisational leadership. An advisory board of outstanding practitioners in major policy fields supports the program and collaborates with teaching staff to ensure that the student learning experience is always relevant and has real-world application.

Associate Professor Deirdre O’Neill
Program Director

Associate Professor O’Neill is an experienced academic specialising in public policy and public management whose career has spanned both government and the tertiary education sector. She has consulted to governments in Australia and has designed and led capacity building programs in China, Sri Lanka, Timor Leste and the Pacific. She has published on a wide range of policy issues, including privatisation of prisons, aid effectiveness and accountability, performance measurement of public policies, capacity building, and developing policy leadership.

MASTER OF STRATEGIC COMMUNICATIONS MANAGEMENT

Become an expert in advocacy and persuasion, crisis communications, reputation management and audience research and analytics.

Drawing on best practices locally and globally, you’ll be equipped with the skills and knowledge to build effective and ethical communication and stakeholder engagement strategies, as well as the expertise to communicate with diverse audiences in an increasingly global environment.

Through core units you’ll examine the impact of persuasive story-telling and influencer strategies, and consider the effectiveness of integrated media campaigns using both traditional and digital approaches. You’ll build a deep understanding of the application of big data and its role in evaluating public and audience perception and engagement.

You’ll have the opportunity to develop in-depth knowledge in key elective fields and your studies will culminate with the option of an international field school, professional internship or major research project.

**Course structure**
The course kicks off with foundational knowledge in strategic communications. Taught through case studies across a range of sectors, you’ll quickly be brought up to speed on the theory and practice underpinning effective strategic communications. Those already with a background in the area can head straight to the core units.

Core units are centred on strategic communications reach and focus, designed to build knowledge and skills to further your understanding of strategic communications management. With an applied focus, and recognising the need for creativity and adaptability to succeed in the industry, you will learn more about the role of big data in strategic communications and how new media technologies are being applied to strategic communications challenges.

Mindful of the rapid technology changes putting communication specialists under constant pressure, you’ll develop techniques in persuasive story telling using digital and non-digital media. Evaluating strategies to build audience knowledge, you’ll be challenged to design and execute effective and ethical strategic communications plans for a range of scenarios including to advocate for social change, mitigate reputational damage, respond to a crisis, and create a media plan suitable for building reputation.

Elective streams units will enable you to further your knowledge with a chosen focus, or in strategic communication management more broadly. You can choose from areas such as:
- Public policy and political communication
- Communication for social change and development
- Sports communication
- Health communication
- Management, leadership and entrepreneurship

To complete your studies you’ll undertake a capstone unit in Collaboration and innovation, producing professional or scholarly work that can contribute to a portfolio of professional development. You’ll achieve this via a professional internship, a research project or an international study tour.

Further information: monash.edu/study/course/a6030

**CAREER OUTCOMES**
Effective communication is critical in any setting and as tomorrow’s leaders, you’ll be ready to respond to key strategic communications goals and challenges armed with a suite of transferable, professional skills. You’ll be equipped to effectively plan and communicate across local and international cultures, be responsive to a digitally integrated world, and work in areas across government, corporate, not-for-profit and community sectors.

Our graduates are prepared with the skills to succeed in a world of digitalisation and globalisation and are ready for leadership roles in areas including:
- Strategic communication advisor
- Public relations director
- Campaign manager
- Marketing communications manager
- Communications manager
- Communication strategist
- Lobbyist
- Advertising strategist
- Political marketing specialist
- Market research analyst
- Media management

**COURSE CODE:** A6030
**CRICOS:** 099501E
LEARN FROM THE BEST
Taught by a combination of leading academics and practitioners in the field, the Master of Strategic Communications Management has a strong applied focus, aligning closely with global industry trends and innovation.

Dr Mugdha Rai
Program Director
Dr. Mugdha Rai has degrees in media and communications, international law, and journalism. Her teaching and research focuses closely on issues of globalization, political communication, advocacy and representation. Mugdha has a particular interest in cross-country comparative research work with extensive academic and industry links both within Australia as well as across Asia, the USA and the UK. She has designed curriculum and taught extensively at postgraduate level and published widely in journals including Media, Culture & Society, International Communication Gazette and Global Media and Communication.

Master of Strategic Communications Management

- APG5044 Professional Internship
- APG5856 Research Project
- APG5369 Industry communications field school
- APG5742 Industry Project
BACHELOR OF ARTS/MASTER’S DOUBLE DEGREE

Graduate with a bachelor’s degree plus a master’s degree in just four years.

The benefits
At Monash Arts we’re committed to providing you with as many opportunities and as much flexibility as possible to allow you to maximise your study options. The Bachelor of Arts/Master’s Double Degree allows you to:

• Fast track your studies and graduate with an undergraduate and postgraduate degree in just four years – instead of five
• Take advantage of the most extensive bachelor’s/master’s offering in Australia
• Make yourself more employable with two degrees and specialist knowledge
• Save time and save on fees

What courses are available?
Add one of the following Master’s degrees to your Bachelor of Arts:
• Applied Linguistics
• Bioethics
• Communications and Media Studies
• Cultural and Creative Industries
• International Development Practice
• International Relations
• International Sustainable Tourism Management
• Interpreting and Translation Studies
• Journalism
• Public Policy
• Strategic Communications Management

How it works

<table>
<thead>
<tr>
<th>Step 1</th>
<th>Enter the Monash Bachelor of Arts</th>
</tr>
</thead>
<tbody>
<tr>
<td>Step 2</td>
<td>Follow any major* sequence and successfully complete two years of study (full-time equivalent)</td>
</tr>
<tr>
<td>Step 3</td>
<td>During the final semester of the second year of the Bachelor of Arts, high achieving students apply to transition into their chosen Arts Master’s degree</td>
</tr>
<tr>
<td>Step 4</td>
<td>Students accepted into the Double Degree program will commence Master’s units during their third year of study.</td>
</tr>
</tbody>
</table>

* Students planning to apply for the Master of Interpreting and Translation Studies require advanced bilingual proficiency and must be enrolled in a language other than English as a major, including Chinese, French, German, Indonesian, Italian, Japanese, Korean or Spanish.

Did you know?
Bachelor of Arts/Master’s Double Degree students have access to both undergraduate and graduate level Arts internships offered by 600+ providers across Australia and globally.

I see the Master’s degree as a necessary qualification in an age of credential inflation and highly competitive globalised job markets. The Master’s qualification also opens up networking opportunities within Victorian and Australian tourism industries, which are invaluable in such a competitive job market.

I feel as though being able to develop and propose effective policy is crucial and I believe that studying at Monash is enabling me the skills to potentially do that.”

MARKUS VAINIKKA
Bachelor of Arts/Master of International Relations student
ELIGIBILITY, FAQS AND FEES

Eligibility
A 60 per cent average in a bachelor’s degree or graduate diploma or a qualification/experience the Faculty considers equivalent.
(Applicants to the Master of Interpreting and Translations Studies should also have advanced bilingual proficiency.)
International students must also meet English language requirements.

English language requirements
IELTS 6.5 overall with a minimum of 6.0 in reading, listening, writing and speaking.
Note: IELTS for the Master of Journalism is 7.0.
TOEFL 550 with a TWE of 4.5; or an Internet-based TOEFL score of 79 with 21 in Writing, 12 in Listening, 13 in Reading and 18 in Speaking.
Pearson Test of English (PTE) overall score of 58 with minimum of 50 in Listening, Reading, Speaking and Writing.

Can I receive credit for previous study?
You may be eligible to receive up to 48 credit points for previous honours or graduate level studies in the area(s) of social sciences/humanities or up to 24 credit points for previous undergraduate studies in the area(s) of social sciences/humanities or honours studies in an unrelated area. Applications for credit are assessed on a case-by-case basis. Studies must have been completed within 10 years prior to the year of application for credit.
For more information, visit monash.edu.au/admissions/credit
International students who complete a two-year course may be eligible for a post-study work visa.
For more information, visit www.immi.gov.au

Graduate tuition fees
Graduate courses attract fees for both domestic and international students.
Details of course fees can be viewed at monash.edu/fees

Domestic students
There are two full-fee payment options: a deferred payment through a government loan or an upfront payment.

Returning student discount
Domestic students returning within 12 months of completing a Monash undergraduate degree may be eligible for a 15-per-cent fee discount. This discount applies for students accepted into any Arts master’s by coursework degree. It doesn’t apply for students who receive a Commonwealth Supported Place (CSP), or who enrol in the Master of Environment and Sustainability, or any of the Bachelor of Arts/master’s double degree programs.

Government loans
There are two types of government loans and both are available to Australian citizens and permanent humanitarian visa holders.
• HECS-HELP – is a loan to cover the Student Contribution Amount (SCA) and is available to CSP holders.
• FEE-HELP – is a loan for 100 per cent of the tuition fee. Students without a CSP must pay full course fees upfront unless they have a FEE-HELP loan.
For more information, visit monash.edu/enrolments/government-loans

Commonwealth Supported Place (CSP)
Each year, the Faculty of Arts is offered a limited amount of CSPs for graduate study. CSP offers are based on academic merit and students must apply by the application deadline. Students in a CSP pay a lower course fee – the SCA. A CSP may be available to:
• Australian citizens and permanent humanitarian visa holders
• Australian permanent residents (must pay the lower course fee (SCA) upfront)
• New Zealand citizens (must pay the lower course fee (SCA) upfront).

International students
Our courses are offered as full-fee places. Students in these courses pay the full tuition cost of the course and must make the payment upfront each semester.

Scholarship opportunities
A variety of scholarships and grants are available for prospective and continuing coursework graduate students. The number of scholarship and grant offers made in any one year varies.
Scholarships are available from Monash University, the Australian Government and other organisations. Prospective students should examine all the scholarships on offer to see what they could be eligible for.
For more information on domestic scholarships, visit monash.edu/scholarships
International students
Monash International Leadership Scholarship
A 100-per-cent course remission for high-achieving international coursework students. Selection is based on academic achievements, application statement and the student’s potential to be a Monash University ambassador.
For more information, visit monash.edu/new-scholarships
Monash International Merit Scholarship
A$10,000 paid per year to high-achieving international coursework students.
For more information, visit monash.edu/new-scholarships
Australia Awards
The Australia Awards are an initiative of the Australian Government to promote knowledge, education links and enduring ties between Australia and our neighbours through Australia’s extensive scholarship programs. Monash University offers a range of courses suited to the development needs of the Australia Awards and its scholarship holders.
For more information, visit monash.edu/fees/australia-awards
HOW TO APPLY
Apply online at monash.edu/admissions
Pathway to graduate research

The Graduate Diploma of Arts Research provides high-achieving students who don’t already have the required research component for direct entry, with the expertise to progress into a Master’s by Research or PhD program offered by the Faculty.

You’ll complete a combination of coursework and research in your chosen humanities and social sciences discipline. You’ll also undertake research methodology training and carry out an independent research project in your selected discipline, working closely with a supervisor who’ll provide you with individual guidance and academic counselling.

monash.edu/study/course/a5004
GRADUATE RESEARCH DEGREES

Master of Arts (MA) and Doctoral (PhD) programs

Reach your full potential and make a significant contribution with research inspired by brilliant minds.

You’ll undertake investigation of a research problem or topic aligned to one of the degree program areas, and will produce a thesis that will make a significant contribution to the field of study.

Alternatively you may have an idea for a research project that can be experienced: like a play, performance, literary work, major translation, or an original piece of journalism whether in print, multimedia or exhibition. Undertaking one of our practice-based PhDs will allow you to produce a shorter thesis together with creative/practical work component.

In both types of research degrees (traditional or practice-based) you’ll be supported by a minimum of two supervisors for the duration of your study.

Degree program areas

We’re one of the largest Arts faculties in Australia and have the capacity to supervise the broadest range of topics in the humanities, social sciences, music and theatre.

Our research degrees are offered across seven programs:
1. Film, Media, Communications and Journalism
2. Historical Studies
3. Linguistics and Applied Linguistics
4. Literary and Cultural Studies
5. Philosophy
6. Social and Political Sciences

Graduates can enter a wide range of careers in the following areas:
- Policy design, analysis and evaluation
- Consulting
- Research
- Management
- Program administration and evaluation
- Politics
- Advocacy
- Investment
- Communications
